238517	Boom #3.12cf, Facit #H9, AFA #2kr-2 [1935 H.C. Andersen] NH VF complete booklet in wonderful, fresh quality. This example features: "Den lille pige med svovlstikkerne" (The Little Match Girl) story on the interleaves; "Succes" chocolate advertising back cover; and the yellow rouletted coupon. The 2015 AFA value for the booklet is DKK 3500 = US\$525 [6/15]. The booklets of this issue are often "well handled" but this example is pristine!	395.00	
237274	1621 BACKING PAPER VERTICAL DIE-CUTTING MISSING ERROR [2013 8.00 "Kaj and Andrea" Childrens TV characters, sheet issue] NH VF horizontal PAIR missing the vertical die-cutting in the backing paper BETWEEN the two stamps (die cutting around the perimeter is present). Any types of errors are rare on modern Danish stamps; I have not before seen this type of error on any Scandinavian/Nordic stamp!	40.00	
237276	1621 BACKING PAPER VERTICAL DIE-CUTTING MISSING ERROR [2013 8.00 "Kaj and Andrea" Childrens TV characters, sheet issue] NH VF Lower PLATE BLOCK missing the vertical die-cutting in the backing paper BETWEEN the stamps (die cutting horizontally and around the perimeter is present). Any types of errors are rare on modern Danish stamps; I have not before seen this type of error on any Scandinavian/Nordic stamp!	100.00	
218538	Iceland #17a [1882 20 aur Ultramarine, Perforation 14] Used F-VF centered example Danish 3-ring numeral cancellation. The number is not readable, but is two or three digit, making is much scarcer than the typical #1 cancel. Danish numeral cancellations are occasionally seen on previously uncanceled ship mail sent to Denmark, but not often on this stamp. With a normal Icelandic postmark, this F-VF stamp is \$270!	285.00	
223856	44d, Facit #40b, AFA #25C [8 øre Perf 12.75, WATERMARK NEW CROWN, Print 121 (1902)]. Brilliant right margin NEVER HINGED 4-block from positions A29-30/39-40. Fine/F-VF centering. Appears to have been last sold in 1993 in a Christies auction where it was described as being from "the unique quarter sheet discovered by F.T.N. Carøe". Accompanied by Lasse Nielsen certificate stating "very fine item". An extremely scarce stamp as a single in Mint hinged condition and RARE as either a block or a single in NH condition. Value as singles: Facit 2007 SEK 36,000 = \$5000. AFA 2007 DKK 34,500 = \$5700. This block certainly has a break-up value of more than my price. This block is a showpiece with excellent investment potential as the value is supported by the four stamps which are constantly sought after by every serious collector of Danish stamps.	3700.00	
234642	288 "Bomb" Variety, AFA #273x, Facit #308v [1942 10 øre Round Tower] Used with Superb centering and a machine cancel that just misses the variety, but with a tiny pinhole that is extremely hard to see. Would otherwise sell for \$80! The "bomb" variety is a diagonal line in the sky to the right of the tower, just below the top rim. The tower bears a Hebrew inscription which causes this basic stamp to also be sought after by Judaica collectors.	29.00

238531	1 (Facit #111 AFA #2b) [1852 2 RBS Dark Blue, Thiele Printing] Used F-VF+ with two large margins, one small margin, and one partial margin just touching. Bold and well-centered #1 numeral cancellation. Very fresh and attractive with nicely contrasting dark ink color and white paper. Accompanied by a Jay Smith photo certificate with lifetime guarantee. Facit 2015 value SEK 11,000!	775.00			
230788	2 Light Red Brown on white, thin paper. Used Superb with four huge margins. Nearly perfect 4-ring-dot mute cancel (somewhat scarcer on this color/printing). An extremely nice example of a very unusual color and paper; rare quality for this printing!	80.00			
230785	2 Red Brown Used VF with four margins. Neat 4-ring-dot mute cancel (somewhat scarcer on this color/printing). Very attractive.	49.00			
232420	2a [First Printing -- First Danish Stamp!] Used horizontal PAIR. F-VF with large margins on three sides, but touches at top. Unusually intense dark color and with perfectly centered "bulls eye" mute cancellation. Exceptional appearance. AFA Specialized 2008 value DKK 1800 = \$305 (3/09)!	215.00			
230787	2b Yellowish (Orange) Brown Used VF+ with four large or huge margins. Neat #43 (Nakskov) numeral cancel. Unusually attractive example!	90.00			
232422	3 [2 sk square, blue] Used VF+ with full margins. Strong blue with complete #24 (HELINGØR) numeral cancellation. This stamp was issued for use on local letters which meant that 95+% of the use occurred in København. Postmarks from other towns are scarce and from small towns or villages are rare.	90.00			
235362	3 [1855 2 skilling] Used Superb with unusually light and neat corner cancel. Regulations stated that the stamps were to be center canceled. "Face free" examples are not often offered.	70.00			
238139	3 [1855 2 sk square, blue] Used Superb with even large to huge margins all around. Clear print with nice color and fairly light cancel. Much nicer than usual!	69.00			
232424	3 [2 sk square, blue] Used F-VF+. Light blue with #34 (København railway) numeral cancellation. This stamp was issued for use on local letters which meant that 95+% of the use occurred in København; while this was used in København, cancels other than the #1 are seldom seen.	56.00			
232425	3 [2 sk square, blue] Used F-VF+, fresh example. Nicely centered "S.J.P.SP. B. 2 TOG" railway cancellation; circular date stamp portion of duplex numeral canceler. This postmark is seldom seen directly struck on any stamp of the period, but it is especially scarce on this stamp which is normally found with #1 numeral cancel.	95.00			
230792	5 Bright Green, Used VF+ with four large to very large margins. This issue usually looks dirty or has a messy postmark; this example is clean and fresh with a neat cancellation.	88.00			
234539	5 [8 sk square, dotted spandrels] Used F-VF/VF horizontal PAIR with light numeral cancellations. Full margins all around except close at one spot. Fold between the stamps and some general, mostly light, creasing in the stamps. Pairs are scarce. AFA Specialized 2008 (most recent) value DKK 2500 = \$425 (9/2010). Attractive and seldom offered. Great price! 190.00				
230793	5a Yellow Green, Used Superb with four huge margins. This issue usually looks dirty or has a messy postmark; this example is clean and fresh with a neat #57 (Ringsted) numeral cancellation.

	Seldom offered so nice.				100.00
230796	7 Orange Brown, Used Superb with four enormous margins and light corner cancellation (contrary to regulations, thus scarce). Though this is a "common" stamp, this quality is seldom offered and is truly one out of a thousand.				35.00
230797	7 "Coffee" Brown, Used VF+ with four ample to very large margins and neat #26 (Hjørring) numeral cancel. Though this color is not rare, such attractive examples seem to be particularly scarce.				25.00
235394	12 [1865 3 skilling Sword and Scepter] Used Superb with VF #210 (København V district) numeral cancellation. Extraordinarily nice example.				100.00
233168	12 [1864 3 skilling Crown and Scepter] Used VF with wonderful perforations and Superb #47 (Nykøbing F.) numeral cancellation. Outstanding quality.				98.00
230801	12b [3 sk Arms 1870 Line Perforation 12.5] Used Superb with terrific centering, extraordinarily nice perforations (normally very rough), deep color, and neat numeral cancellation off to the side allowing the design to be fully seen. The Line Perf 12.5 stamps of this rare in such nice quality as demonstrated by the AFA 2007 DKK 6000 = \$1020 for normal quality and DKK 14,000 = \$2380 for extremely fine quality!				1100.00
234640	12b [1870 3 sk Arms Line Perforation 12.5] Used VF centered example with neat numeral cancellation, better-than-usual perforations, and strong color. However is creased, but that is not visible from the front. The Line Perf 12.5 stamps are scarce; the AFA 2010 catalog value is DKK 6000 = \$1100 [10/2010] for normal quality! Very attractive and very reasonably priced.				195.00
233169	13 [1864 4 skilling Crown and Scepter] Used Superb with perfect centering and wonderful perforations. VF #32 (Kalundborg) numeral cancellation. Even though this is a common stamp, such nice quality is not often seen.				25.00
235371	13 [1864 4 skilling Sword and Scepter] Used VF with VF #18 (Frederiksborg) numeral cancellation. Very sharp appearance.				24.00
230806	(16a) [Greenish Gray and Deep Prussian (Dark Greenish) Blue] Used F-VF centered with extremely intense color. Nice (or even just undamaged!) examples of the Prussian Blue 2 Skilling stamps are extremely hard to find.				195.00
230807	19 Used VF+ with excellent centering, intense color, and #44 (Næstved) numeral cancellation. Very attractive and very hard to find in such nice quality!				95.00
235727	22 [1870 4 skilling Bicolor, Line Perforation 12.5] Mint F-VF / VF BLOCK OF FOUR. Extremely lightly hinged; just a single extremely light mark at the center of the block. Right two stamps are VF, left two are F-VF. The perforations are strong. Lower right stamp has a minor tone spot on one perforation (some people would probably not mention it). A classic multiple with wonderfully fresh appearance. Accompanied by 1974 S. Grønlund photo certificate and 2011 Jay Smith photo certificate with lifetime guarantee. 2012 AFA Catalog value for the four singles is DKK 4800 = \$950, and the AFA 2012 prices the block at DKK 8000 = \$1600! Even as singles, this stamp is undervalued by the catalogs; it is resident on almost all the want lists I see.				950.00

The tower bears a Hebrew inscription which causes this basic stamp to also be sought after by Judaica collectors.	---	---	---	80.00	---					
236620	Scott #32, AFA #29, Facit #35d. Printing 4. This variety exists in eight positions in the sheet (13, 18, 33, 38, 53, 73, 78, 98) but they are hard to obtain. 236994	35 Printing 2 [1882 5 øre Arms with Small Corner Numerals] Used F-VF+ with nice 2-ring mute parcel post cancellation. Print 2 was confirmed by Lasse Nielsen; it is one of the scarcer printings; AFA 2008 Specialized value is DKK 1200 = \$200. The paper of the Small Numeral stamps is extremely thin, thus easily damaged; not many have survived. This example has one slightly short perforation, but it is hidden by the postmark. Fresh and attractive.	---	---	---	79.00	237789	135 [1915 5 Kr Post Office Building, Crosses Watermark] Used Superb, with neat, fully dated cancellation, and excellent perforations. Print 3 was confirmed by Lasse Nielsen. It is a very obvious color difference and is included in some printed albums. AFA 2012 value with well-centered cancellation is DKK 550 = \$93, but this example is still significantly better than that standard. An outstanding example! 1864-1870 Arms

Item #	Description	Price
202189	11, 12, 15 (perforations and margins trimmed off by custom of "polite society") [2, 3, and 16 skilling Royal Emblems] on RARE 3 June 1867 cover received in LIBAU (Cyrillic LEPAYA), LATVIA, on 26 May. Russian-controlled Latvia used the Julian calendar, thus the letter was "received before it was sent". DAKA lists (at DKK 12,000!) only one 21 skilling rate to Russia and makes no mention of covers with that rate known to the much more sought-after Baltic collecting area of Latvia. Though has a virtually invisible archival crease affecting the #15, is overall a very attractive and colorful cover with #181 duplex railway cancellation.	850.00

225621	25/25c x4 (Fine), 30 (damaged) on ca. 1875 4 øre Ultramarine postal stationery envelope. 16 øre Print 2 (damaged) and 4x 3 øre Print 2. The third 3 øre stamp is POSITION 18, INVERTED FRAME. Registered mail to Germany; upon arrival in German postal system, German registration label affixed -- this is the first time I can recall having an example of this happening on Danish-German registered mail. Cover with some wear and appears to have been professionally cleaned, but attractive and with a very scarce stamp (Facit 2007 value SEK 5000 = \$700; AFA 2002 Specialized value DKK 3800 = \$660 just for this inverted frame single used stamp). Identification confirmed by Lasse Nielsen and with his mark. Extremely scarce usage.	425.00

	confirmed by Lasse Nielsen. Both printings date from 1893. This type COD parcel label (AFA #A3, COD parcels) came into use in 1887. Skilling-Daka shows the receiver recorded (so far) as used into 1890; if the stamp printing identification of this cover is correct, this cover significantly extends the known period of use for this postmark. Marked "Retour" and returned to sender. Very attractive and interesting usage with nice railway receiver. Excellent quality for such items.	95.00
231962	26 Print 10 position B75 and #28 Print 10 (Fine) on ca. 1877 4 øre Ultramarine small-format postal card, as a parcel card from HORSENS with numeral cancellations #30, to København. Some minor toning on stamps. Stamp printings confirmed by Lasse Nielsen. These early stamp printings are scarcer issues on cover; nice usages of the Ultramarine 4 øre card are scarce.	80.00
231964	26c 4 øre Print 4 and #28a 8 øre Print 3 (F-VF, Fine) on 27 November 1875 folded cover (no contents) from KJØBENHAVN to Sølvesborg, Sweden. Previous owner noted that this date is/was the earliest known use for the 4 øre Print 4. Stamp printings confirmed by Lasse Nielsen. Attractive usage of early printings; remarkably fresh and nice.	125.00
233878	26 [4 øre Bicolor Perf 14] (F-VF) FIVE-STRIP from positions B41-45 from Printings 40, 41, 42, or 44. 9 November 1887 cover from FAABORG with Lapidar-style cancels, to Hummelstown, Pennsylvania, U.S., with backstamps. While five examples on cover is not very scarce, it is quite unusual to find an intact 5-strip!	75.00
223419	26 pair [4 øre Perf 14 Bicolor] (Fine) on neat and attractive cover used from "KJØBENHAVN KB" to BORUP (with sans-serif [lapidar] receiver). Remarkably rough perforation variety; seldom seen on cover.	28.00
223855	27, Facit #30b, AFA #24. Print 3 (1880) [5 øre Bicolor] F-VF centered solo usage on wonderful 7 January 1882 printed matter cover from København to Sweden, with Swedish railway cancellation applied in transit (as fairly often seen on this particular denomination). Remarkably fresh and attractive. Quite scarce in such nice quality. Accompanied by Lasse Nielsen certificate.	675.00
223416	28, 29, 31 [8, 12, and 20 øre Perf 14 Bicolors] on ca. 1880 parcel letter (envelope accompanying a parcel post package) from HOLBÆK. 12 øre stamp seriously damaged, but otherwise sound and attractive though colors a little aged. Attractive and quite interesting.	45.00
233879	31b [1875 20 øre Bicolor, Print I, Thick Inverted Frame] (Average, tiny tear) solo use on ca. 1875-76 to the U.S., addressed to a ship fireman (boiler tender) at the Sailors Home in New York. Nice "KBHVN:NØRREBRO lapidar-style cancellations (Skilling page 147; DKK 100, fairly scarce for a København postmark). Skilling indicates recorded postmark use of 11 February 1876 through 12 November 1879. There is no year-dated postmark, but there is a 1876 docketing., which may or may not be contemporaneous. The postmark is 7 December, thus if this is 1875 (which it could be), it extends the use period. AFA 2010 value for the most common inverted frame printing on cover is DKK 1600 = \$290 [1/2010] for the most common use, which would be to Germany. Use to the U.S. is much scarcer. Very interesting cover at a very low price.	95.00
224456	26, 31b pair, 33b pair [Perf 14 Bicolors: 4 øre, pair of 20 øre inverted frames (one seriously damaged), and a very nice pair of 50 øre inverted thick frames] on 1880 privately printed parcel card for two packages from København to Vienna, Austria. This card has seen better days, however, when was the last time you saw an early Danish parcel card to Austria in good condition? With a very nice strike of the Slesvig boxed marking "Aus (uber) Danemark / via Hamburg 2 / Porto von

223417	29c, 34b strip of four [12 and 100 øre Perf 14 Bicolors, all Inverted Frames] on 1895 Adressebrev (parcel letter; envelope accompanying a parcel post package) from RINGKJØBING to København; with a stated value of 85,000 kroner (a princely sum at the time!) and with 18.47 kr cash due on delivery. A nice boxed "Talt" handstamp indicates that the postal clerk counted/verified the contents before sealing the package. Unfortunately, several stamps are missing from the reverse, believed to be 10x 100 øre stamps. Assuming that is the case, the rate works out correctly as follows, adding up to 1412 øre franking: 2-5 pound parcel 24 øre; COD fee 12 øre; insurance for 0-200 kr 16 øre, 200-1000 kr 16 øre, and 1000 to 85000 kr 1344 øre. A wonderful and attractive postal history item despite the missing stamps; at a very low price (the 100 øre stamps are listed in the 2007 AFA catalog at DKK 750 = US\$130 EACH).	395.00

233881	45 or 45a [1895 or 1902 10 øre Arms] (VF) on unusual picture post card to Italy. No date, however since the card back is not divided, the card likely dates from before 1907 and probably before 1901. Worn corners on the card, but it is a very unusual style and color of card from Denmark. Unusual destination for this time period.	5.00

Wavy Line Design -- 1913-1930, Typographed, Crosses Watermark

Item #	Description	Price
222147	89 pair [1921 5 øre Brown Wavy-Line Numeral] (VF) on 7 April 1928 seemingly ordinary picture post card to Sweden. However, the card is a very rare real-photo of Højerup Church taken on or very soon after 16 March 1928. The church, built ca. 1250-1300, is located on Stevns Klint (Stevns Cliff) on the southeast coast of the island of Zealand (Sjælland) in south Denmark. The church was originally built somewhat inland, however, by 1928, due to wave erosion, it was near the edge of the cliff. On 16 March 1928, the part of the church nearest the edge of the cliff fell into the ocean as the result of a landslide related to a storm. In this exceptionally clear real-photo card, hundreds of people (which would be a large assemblage for this rural area) are seen viewing the wreckage. The handwritten text on the card translates to: This is Højerup Church, you can see some has fallen down. Many people can also be seen on the beach below as well as a couple of boats being raised or lowered on the cliff face. This card, the

	"CNN of the day" documents the event. However, that is only part of the story: Stevns Klint is geologically world famous for clearly showing the "type locality of the Cretaceous/Tertiary boundary. In the upper part of the cliff, from here and upwards, we have the lowest part of the Tertiary, and that is called the Danian, and it is named after Denmark." This geologic boundary is found worldwide; it represents an enormously huge event, probably a cataclysmic meteor strike, that is believed to correspond to the extinction of the dinosaurs! In this photo card, at the right side, one can clearly see that the cliff is made up of two distinctly different horizontal layers of rock. [Google for "Højerup Kirke" and "Stevns Klint" for more information and current photos of the church and cliffs.] This card is rare for its timeliness and global significance.	45.00

234908	97 4-strip [1913 5 øre Christian X] (F-VF) on 15 March 1917 "Adressebrev" parcel letter form (to accompany parcels in the mail) for a 1 kg parcel from NIVAA to København. Minor aging, but very attractive.	10.00
234909	103 [1913 20 øre Blue Christian X] (VF) on 17 March 1915 "Adressebrev" parcel letter form (to accompany parcels in the mail) for a 2.5 kg parcel from VIBORG, with Superb cancel, to København. Sent between Customs offices.	12.00
234910	103 [1913 20 øre Blue Christian X] (Fine) on March 1916 "Adressebrev" parcel letter form (to accompany parcels in the mail) for a 2.5 kg parcel from KJERTEMINDE to København.	6.00
234911	103 x2 [1913 20 øre Blue Christian X] (Fine) on ca. 1919 "Adressebrev" parcel letter form (to accompany parcels in the mail) for a 3 kg parcel from HUMLEBÆK to København. Scarce hand-stamped parcel label; creased and worn, but scarce label. Cancel date not clear but the rate did not start until 1 January 1919.	8.00
234913	120 and 100 [1913 50 øre Wine-Red and 10 øre Christian X] (F-VF) on 1 July 1918 "Adressebrev" parcel letter form (to accompany parcels in the mail) for a 5 kg parcel from "KØBENHAVN 5" to Ærøeskjøbing. The postal rate for a 5 kg parcel was 35; though this adressebrev does not bear any notations in this regard, it must have been a COD (cash on delivery; postopkrævning) parcel with 10-50 kroner payment due, which would explain the other 25 øre franking. The 50 øre stamp is quite scarce on cover.	45.00
234912	120 [1913 50 øre Wine-Red Christian X] (F-VF, discolored spot due to handling in the mails) correct solo use on 16 February 1919 "Adressebrev" parcel letter form (to accompany parcels in the mail) for a 3 kg parcel from "KØBENHAVN 3" to Kjertminde. This solo use is somewhat scarce because this 3 kg postal rate did not start until 1 January 1919, but was again increased on 5 October 1919, however, this Wine-Red 50 øre was replaced with the Wine-Red and Black bicolored 50 øre on 2 January 1919! This stamp is generally quite scarce on cover.	40.00

Items such as this must be preserved.	24.00

238396	Denmark Scott #318, 320 [1950 10 øre green Wavy-Lines; 1950 20 øre brown Frederik IX] (VF) on 18 January 1951 Swedish picture post card (Malmö inner harbor) to an apparently British soldier in the "B.A.O.R. 1" (British Army Of the Rhine; 1 = headquarters at Bad Oeynhausen), with 20 January 1951 British FPO 328 military receiving postmark. Though the sender appears to be British and the sending from Denmark just coincidental, it is worth mentioning that the Danish military participated in the B.A.O.R. occupation operations through their "DEN DANSKE KOMMANDO I TYSKLAND" until 1958. A very unusual use relating to the Allied occupation of Germany. 16.00

215197	280 Brownish Violet and 286B pair [Christian X 10, 50 øre] (VF) on 23.8.46 airmail 110 øre cover, from SKODSBORG, to the U.S. Surface letter rate 40 øre 0-20 grams 1 July 1940 - 31 May 1950 plus airmail surcharge of 70 øre per 5 grams ? June 1946 - 2 October 1946. The air surcharge rate started sometime in June (when is unknown per Hedelius) and the rate was in use for no more than four months! Scarce rate period. 28.00	
223435	281, 286B [1942 15 øre and 1945 50 øre Christian X] (VF) on 28 October 1946 air cover to Czechoslovakia. Correct 65 øre air rate. Unusual destination right after WWII. 9.00	
215205	282 x2 [20 øre Christian X] on 1947 cover to England. Apparently reused domestically in 1949. Not a "combination" cover in the normal sense, but fun and quite unusual! Danish stamps a little worn. 10.00	
223436	282 x2, 283 [1942 20 øre and 1943 25 øre Christian X] (VF) on 23 August 1946 air cover to Czechoslovakia. Correct 65 øre air rate. Unusual destination right after WWII. 8.00	
215198	285 dark color 287 light color [35, 60 øre Christian X] and 293 [20 øre Ole Rømer] (VF) on 15 November 1944 unsealed registered cover, from København 11, to Norway, with "Ak" Nazi censorship; sent by a stamp dealer. The Ak censor handstamp was used because the contents was likely unsealed printed matter and did not require individual censoring. The 115 øre franking puzzles me; deducting 30 øre for registration, 85 øre postage does not match up to any rate or combination of rates that I can find. If the letter contained anything other than printed matter (though obviously at least the letter rate was paid), it would have been sealed. However, I cannot imagine the sender wasting too much postage during the war with a gross overfranking. At the same time, I do not see any obvious philatelic or commemorative purpose of such a cover. 20.00	
215202	286 pair [40 øre Christian X] (VF) on 5 February 1948 cover to the U.S. Originally marked for "5 gram" rate, but was covered over with air label. The surface (or 5 gram) rate was 40 øre and the air surcharge for 5 grams (when an airmail label was applied) was 40 øre for a total of 80 øre. If this cover weighed over 5 grams, the postage would be been (at least) 120 øre, not 80 øre. The sender wanted to insure air service; at this point, the "5 gram" service was only by air when space was available. 13.00	
215203	286 3-strip [40 øre Christian X] (VF) on 21 December 1948 airmail cover to the U.S. 120 øre franking for 40 øre base surface rate plus 40 øre per 5 grams air surcharge. Attractive. 12.00	
215204	286 x5 [40 øre Christian X] on 14 December 1948 cover to the U.S. Though not marked as such, must have been airmail, between 15 and 20 grams. The base surface rate was 40 øre up to 20 grams; the air surcharge was 40 øre per 5 grams. Stamps a little soiled, but cover is VF. Covers with this amount of postage are seldom seen on smaller-size envelopes such as this. 15.00	
234900	286B [1945 Christian X 50 øre] (VF) on 1949 DKK 18.40 money order payment form from JEBJERG to SKIVE. The payment was either not deliverable or not accepted by the recipient, and

Modern Danish parcel cards to Greenland are seldom offered (they were supposed to be retained by the post office for a few years and then the stamps torn off and sold as kiloware).	10.00

It is unusual to find such "unfolding" cards in nice quality.	8.00
223438	325 x3, 323, 334, 335 [1951 55 øre Brown Frederik IX and other values of set: 25 Light Blue, 30 Brownish Red, 40 Gray] (VF) on a 25 May 1954 registered airmail business-size envelope to the U.S. The envelope is a little aged, but the stamps are all VF. The rate is correct for 20 grams: 60 for surface rate to 20 grams, 40 registry fee, 4 x 40 airmail surcharge. The net of the three rate components make this rate possible only from 1 July 1953 through 31 March 1957. This unassuming cover is an extremely scarce item! The 55 øre Brown is rare on cover: AFA 2007 lists it at DKK 1200 = US\$210 for a typical usage. This usage is much more interesting, with three examples of the stamp and the franking is "pure" Frederik IX!	175.00

Airmail-franked postal cards are quite scarce. The airmail label (over the edge) is the one position in the sheet showing the form number and print date. Green LÖSEN postage due label with 5 øre value written in. The sender may have been meaning to send as printed matter, but the envelope was sealed, thus the Danish 10 øre rate applied. Such postage due uses are not often offered.	35.00

Paid only for single weight, thus charged POSTAGE DUE with a red "6" for cash payment by the recipient. Though this is a traditional underpaid postage due cover, not one of the terribly rare penalty usages, it is still a seldom seen usage.	190.00

Ha!). Swedish boxed "T 10 re" (somewhat unusual) handstamp, blue manuscript Danish "10", and the Danish postage due stamp. The correct postage rate was 20 øre, thus the shortage was doubled. If you are seeking specific numbers or cancellations on specific stamps, please send your want list. Many numeral cancellation numbers were re-assigned to different towns in 1864, thus some are collected in both periods. 204324	3 [2 sk square, blue] Used Fine. Medium Blue with numeral cancellation that could be #110 (STOKKEMARKE, unrecorded by Tuffs in 1983 on this stamp), #113 (ALTONA, recorded but quite scarce), #118 (HEILIGENHAFEN, unrecorded), or #119 (ITZEHOE, unrecorded). This stamp was issued for use on local letters which meant that 95+% of the use occurred in Kjøbenhavn. Postmarks from other towns are scarce and from small towns or villages are rare, even unclear examples such as this. Of the possibilities, only #110 is now in Denmark. Altona was the Danish post office operating in the German town of Altona to facilitate mercantile trade. The other two numbers are in the Schleswig/Slesvig area now in Germany. The quality could be better, but it may be the only example.	65.00	
204325	3 [2 sk square, blue] Used Fine. Medium Blue with #121 (KIEL) numeral cancellation. This stamp was issued for use on local letters which meant that 95+% of the use occurred in Kjøbenhavn. Postmarks from other towns are scarce and from small towns or villages are rare. This is the Royal Danish Post Office in Kiel 2 skilling usage that I can recall having in 30 years. Cancel is a little faint, but it is clearly #121.	110.00	
204326	3 [2 sk square, blue] Used VF with four large margins. Medium Blue with #170 (HOLSTEIN EISENBAHN) [Schleswig-Holstein railway] numeral cancellation. This stamp was issued for use on local letters which meant that 95+% of the use occurred in Kjøbenhavn. Postmarks from other towns are scarce and from small towns or villages are rare. The cancel is not obvious, but it is a #170.	80.00	
204327	3 [2 sk square, blue] Used F-VF, three margins. Medium Blue with #181 duplex (SJÆLLANDSKE JB.P.) [railway] numeral cancellation. This stamp was issued for use on local letters which meant that 95+% of the use occurred in Kjøbenhavn. Postmarks from other towns are scarce and from small towns or villages are rare.	90.00	
232425	3 [2 sk square, blue] Used F-VF+, fresh example. Nicely centered "S.J.P.SP. B. 2 TOG" railway cancellation; circular date stamp portion of duplex numeral canceler. This postmark is seldom seen directly struck on any stamp of the period, but it is especially scarce on this stamp which is normally found with #1 numeral cancel.	95.00	
234539	5 [8 sk square, dotted spandrels] Used F-VF/VF horizontal PAIR with light numeral cancellations. Full margins all around except close at one spot. Fold between the stamps and some general, mostly light, creasing in the stamps. Pairs are scarce. AFA Specialized 2008 (most recent) value

232431	13 [1864 4 sk Arms] Used VF Light Red FOUR-STRIP with neat #24 numeral cancellations. Light creasing, small thin spot, and sensibly reinforced in center, but very attractive and quite scarce. AFA Specialized 2008 value is DKK 1200 = US\$205 (3/09). Such multiples are seldom offered.	95.00

2, 4, 48 Skilling Line Perfed		
Item #	Description	Price
235727	22 [1870 4 skilling Bicolor, Line Perforation 12.5] Mint F-VF / VF BLOCK OF FOUR. Extremely lightly hinged; just a single extremely light mark at the center of the block. Right two stamps are VF, left two are F-VF. The perforations are strong. Lower right stamp has a minor tone spot on one perforation (some people would probably not mention it). A classic multiple with wonderfully fresh appearance. Accompanied by 1974 S. Grønlund photo certificate and 2011 Jay Smith photo certificate with lifetime guarantee. 2012 AFA Catalog value for the four singles is DKK 4800 = \$950, and the AFA 2012 prices the block at DKK 8000 = \$1600! Even as singles, this stamp is undervalued by the catalogs; it is resident on almost all the want lists I see.	950.00

1882-1902 Arms

Item #	Description	Price	Used
236994	35 Printing 2 [1882 5 øre Arms with Small Corner Numerals] Used F-VF+ with nice 2-ring mute parcel post cancellation. Print 2 was confirmed by Lasse Nielsen; it is one of the scarcer printings; AFA 2008 Specialized value is DKK 1200 = \$200. The paper of the Small Numeral stamps is extremely thin, thus easily damaged; not many have survived. This example has one slightly short perforation, but it is hidden by the postmark. Fresh and attractive. --- 79.00		
232438	37 Inverted Watermark. Used VF+ with neat numeral cancellation. Very attractive. 89.00		
237475	39 THICK PAPER [1885 10 øre Arms with Large Corner Numerals, Perf 14 x 13.5] Used F-VF with unusually thick paper that is rarely seen on this issue. --- 6.50

Print 3 was confirmed by Lasse Nielsen. It is a very obvious color difference and is included in some printed albums. AFA 2012 value with well-centered cancellation is DKK 550 = \$93, but this example is still significantly better than that standard. An outstanding example! From the Far-ington collection. --- 110.00

232445	48, Identified as Printing 22 (numbered from first printing of design) in beautiful Used VF+ 8-BLOCK with clear ODENSE 1899 cancellations. The AFA 2009 Block Catalog lists a single used 4-block at DKK 500 = US\$85 (3/09), but an 8-block is many, many times scarcer than two four blocks. Sensibly, proactively reinforced. Wonderful quality! 165.00

1904-1906 Christian IX

Item #	Description	Mint
236726	66 [1904 20 øre blue Christian IX] SET OF TWO Mint Fine 4-BLOCKS in two distinctly different color shades: Dark Blue and Medium Blue with blue-toned paper. The darker block has one stamp (upper right) with tiny thin speck. The blue-toned-paper block is very interesting with many copper-plate-engraved plate scratches bending in all directions, likely caused by hand-wiping the plate too hard with an abrasive cloth (and probably significantly shortening the life of the plate); this is not often seen so prominently. Priced at only the value of 7 Mint Fine stamps!	129.00

Cold War Emergency Stamp

In 1963, at the height of the Cold War, the Danish Post Office created a secret "Emergency Stamp" (Nødfrimærke) for use in a major crisis, such as nuclear war. In 1991, these stamps were revealed and offered to collectors with a 10-block as the largest unit. The remaining stocks were destroyed. Crudely printed by letterpress (typography) with invisible gum and often rough perforations. Centering is highly variable; Fine or F-VF is normal, whereas VF or better is quite scarce! More detailed information (including paper types and plate varieties) and pictures are on my website.

Print 2 was confirmed by Lasse Nielsen; it is one of the scarcer printings; AFA 2008 Specialized value is DKK 1200 = \$200. The paper of the Small Numeral stamps is extremely thin, thus easily damaged; not many have survived. This example has one slightly short perforation, but it is hidden by the postmark. Fresh and attractive.		---	---	79.00	42b SD		---	4.75	4.25

This is a very old small town from which cancellations are seldom offered. Wikipedia states "town was established by the Viking Slangir at the time of Harald Blue-tooth" king of Denmark and Norway (H.B. died in 985 or 986). Nice Viking connection. The QUALITY IS EXCEPTIONAL and, even though this is an inexpensive stamp, it would likely get top billing in a Danish auction catalog! When only the best will do!	---	---	125.00

Machine Stamps

Framas - 1990-2007

Danish 1990-2007 Machine Stamps (also called automat stamps) were dispensed from machines manufactured by the Frama company, thus the name FRAMA stamps. From 2006 onward (except for one last 2007 Frama issue), self-adhesive machine stamps from a different type of machine were issued. These are all real postage stamps, not meters or labels. They are valid from any location in Denmark, at any time, by any mailer. (Unlike meter imprints which are only valid from the location and on the date imprinted, by the licensed user.) These stamps are collected in "rate sets", the most commonly used postage rates for which the machines had pre-set purchase options and/or which the post office offered in sets. All but the first of the Frama issues are sets of three designs, typically with three standard rates; most collectors thus collect them in sets of nine stamps. The dates are the first dates that the respective design was available in the respective postage rate period. **If you are seeking items that are either noted as out of stock and/or are simply not listed, please send your want list.** When available, I offer the smaller sets of the minimum different designs as well as random singles -- in both cases, the denomination may vary from the image on the website.

Self Adhesive - Most Recent

Starting in 2006 (except for one late Framas issue in 2007), Danish Machine Stamps (automat stamps) have all been die-cut, self-adhesive, on backing paper. Normally they were dispensed in attached strips of alternating three or four multiple designs (1,2,3,1,2,3, etc.) or a few single-design issues. The first issue looked like a coil (straight edge top and bottom), but after they

they have been "perforated" on the left and part of the top and bottom, with the right end not "perforated". On some issues, it is known that different spacing of the stamps on the backing paper exists (from different variants of the dispensing machines); as these are production differences, they are collectible differences. These are all real postage stamps, not meters or labels. They are valid from any location in Denmark, at any time, by any mailer. (Unlike meter imprints which are only valid from the location and on the date imprinted, by the licensed user.)

These stamps are collected in "rate sets", the most commonly used postage rates for which the machines had pre-set purchase options and/or which the post office offered in sets. The typical issue consists of three or four designs, typically with three or four standard postal rates; most collectors thus collect them in sets of 9, 12, or 16 stamps, depending upon the number of designs and the number of rates in the standard set. The imprinting of rates could sometimes occur in an attached strip of all the same rate, or an attached strip of the four different rates; many people consider these collectible differences. On some of the issues, the denomination imprints exist in more than one typesize / typeface. The dates are the first dates that the respective design was available in the respective postage rate period. Documentation about these stamps at the time of issue was poor and there is still not much published about the production and dispensing of these stamps, thus one has the opportunity to find unexpected items.

The dates are the first dates that the respective design was available in the respective postage rate period. **If you are seeking items that are either noted as out of stock and/or are simply not listed, please send your want list.** When available, I offer the smaller sets/strips of the minimum different designs as well as random singles -- in both cases, the denominations or the order of denominations vs designs in a strip may vary from the image on the website. I am interested in buying items, formats, combinations, etc., that are not shown here.

Tete-Beche And Gutter Pairs

Starting in the 1930s, stamps for booklets were printed in special sheets (panes) that include vertical tete-beche pairs, with and without gutters. Five of these special sheets were available for general sale and thus exist mint and postally used. These "standard" issues are listed by the Scott Catalog and all other catalogs. There are also a couple other modern tete-beche pairs that were issued as part of normal booklet issues.

In 1971, postal officials sold to collectors such pairs from 19 other sheets; these are NOT listed in the Scott Catalog, but ARE listed in the Facit Catalog (after #101) and the AFA Catalog (immediately before the Official Stamps listings). While canceled examples can exist, their cancels would have to be 1971 or later, and are not considered used in the proper time period. Of these special issues, the quantities released ranged from 13 sheets to 311 sheets, thus they range from scarce to rare.

The sheet layout for typical small-size stamps was the usual sheet size of 100 (10 x 10), but the third and eighth rows were blank. The 8 rows with stamp designs have the designs oriented as follows: sheet rows 1-2 inverted, rows 4-5 upright, rows 6-7 inverted, rows 9-10 upright. This allows, per sheet, for 20 tete-beche pairs with gutter, but only 10 tete-pairs without gutter -- that is why the without-gutter pairs are always scarcer and have a higher price. There were a two larger-size stamps involved (semi-postal issues), they only exist with gutter.

All these issues are popular and my stock is constantly changing if you do not see what you need listed here, please send your want list that you can be put on the waiting list. I am always interested in buying these items.

Advertising Pairs

Danish advertising pairs and panes are listed, using identical numbering, by both Facit and AFA. The centering of the advertising labels and the stamps varies greatly within the panes and pairs; examples with VF centering are unusual in most cases; Superb centering is exceptional. The perforations of these issues were often quite variable, with small-hole perforations that resulted in rough appearance -- this is usually normal and typical. All are available for viewing on approval. **Please send your want list for any items not listed.**

Danish Advertising Pairs on cover are also available.

In 2005, an important new handbook Danish Advertising Panes by James A. Gaudet was published. It contains a great deal of new research and never-before published information on the Danish advertising label pairs/panes and booklets. The book thoroughly covers the development, printing, production, and usage of these issues, with particular emphasis on the varieties of both the labels and the stamps. The result of many years of painstaking work, this book brings new life to its subject. Completely in English, hundreds of illustrations, hardbound, 230 pages. Published by the Scandinavian Philatelic Foundation, the book can be ordered from Jay Smith and Associates, with 100% of the funds going to the SPF. Join today (minimum \$15 donation) to

Year Books

Official year books are handsome hardbound books that contain the stamps issued during the year as well as dozens of wonderful photographs and illustrations and interesting and informative text about the stamp issues and the country. The text is usually in multiple languages; unless otherwise stated, full English text is included. Denmark official year books have been issued since 1992. Each book contains one year of stamps.

Booklets

I have an extensive stock of all types and eras of Danish booklets, but they are not yet listed here. Please send your want list or let me know of your interests. The most recent specialized cataloging of Danish booklets is the 1994 catalog by Boom (used copies occasionally available; please inquire). The AFA Specialized Catalog is the next most specialized listing, followed by the annual AFA catalog, and finally the Facit Catalog. I am able to fill want lists using the numbers of any of these catalogs. All booklets are NH, VF, complete and fresh.

Classic Booklets

Hans Christian Andersen Booklets

The 1935 H.C. Andersen booklets are listed as Boom #3.11-3.16 (with variations), Facit #H9, and AFA #2kr-2. All booklets contain three 5 øre panes, two 10 øre panes, and one 15 øre pane: Scott #246b, 248b, and 249b. This booklet issue had many possible variations: five different back covers, three different "coupon" (a special interleaf) colors/separations; FIVE DIFFERENT HCA STORIES ON THE INTERLEAVES, and a special version with a simulated leather cover. According to Boom, up to 76 possible combinations of these may exist. As a result any particular combination is actually quite scarce. The possible back covers all advertise candy, chocolate, and confection products of the Galle and Jensen company: Gul Brud, Ga-Jol, Success chocolate, Lita Vert, Marcipan. The possible interleaf stories are: Den lille pige med svovlstikkerne (The Little Match Girl), Engelen (The Angel), Det er ganske vist! (Its Quite True), Flipperne (The Shirt Collar), Sommerfuglen (The Butterfly). **If you are seeking any particular version, back cover, or story, please let me know.**

Postal Stationery

233880	1880s 8 øre postal stationery envelope with "J.M." PERFIN of the J. Moresco company, and with company return address. Used from KJØBENHAVN to Roeskilde, with receiver; all lapidar-style postmarks. In the world of philately, perfined postal stationery is a rare occurrence. While this particular item is not "rare", examples in such nice quality are seldom offered!	75.00
231961	26 Print 65 pair, #28 Print 69 (VF) on ca.1893 4 øre postal stationery envelope used as a cash-on-delivery (3 kr, 26 øre) parcel letter from RANDERS to ALLINGAABRO with "ALLINGAABRO 3 TOG" railway receiver on reverse (Skilling-Daka 2007 #32; fairly scarce; usage so far reported 9 Nov 1883 - 20 Aug 1890). Printings confirmed by Lasse Nielsen. Both printings date from 1893. This type COD parcel label (AFA #A3, COD parcels) came into use in 1887. Skilling-Daka shows the receiver recorded (so far) as used into 1890; if the stamp printing identification of this cover is correct, this cover significantly extends the known period of use for this postmark. Marked "Retour" and returned to sender. Very attractive and interesting usage with nice railway receiver. Excellent quality for such items.	95.00

Nazi-German censorship handstamp applied in København. Message in Danish. Such uses are unusual.	50.00

This essay was designed by N. Rasmussen and was presented to the post office on 30 October 1930, with the suggestion that stamps be issued with a premium value (i.e. a semi-postal) to benefit poor people. This issue is quite scarce and very much in demand due to the many topics represented in the designs.	650.00

1920 South Jutland (Schleswig) Reunion Issue

Proofs of these three designs exist in black, in colors very close to the issued colors, and in other colors (scarce). The 10 øre pictures the Kronborg Castle in Elsinore (Helsingør) which is usually considered a lighthouse issue by lighthouse topical collectors.

Item #	Description	Price
221490	Scott #156/159 [10 øre Reunion issue: Kronborg Castle (The location for Hamlet and including what most collectors include as a lighthouse)]. 221492	Scott #158/160 [40 øre Reunion issue: Roskilde Cathedral]. Plate proof in black on thick yellowish, smooth paper. A very attractive and inexpensive plate proof, though this denomination is somewhat scarcer than the other two.	35.00

Airmails

Proofs of the classic-design 1925-29 airmail stamps (designed by Axel P. Jensen) are very scarce and of dramatic appearance. As I look at the farmer and his horses, I have to wonder if the farmer is pleased with the progress he is witnessing or if he is annoyed that the "new fangled flying machines" are scaring his horses (something that can be a problem in our area even today, though the planes are now huge, fast monsters armed to the teeth). I have only been able to offer such proofs twice in 37 years! While proof-like imperforate forgeries do exist, they are clearly different in design and size. These proofs are absolutely guaranteed genuine.

Test Stamps

Test Stamps (also called Dummy Stamps in the U.S.) are created by stamp printers and post offices to test printing and production processes and other machines. While a few have had extensive philatelic distribution, most were never intended to be known to collectors and are very scarce. New discoveries continue to be made. Denmark has made use of several types and designs of test stamps; some of these are shown in the AFA Specialized Catalog at the start of the 1933 steel-engraved period.

All items are available for viewing on approval. I have a constantly changing stock of Danish and all Scandinavian essays, proofs, reprints, specimens, and test stamps. Most such items sell before they get to the website or price lists. What are you seeking?

1968 Grundtvig Cathedral Slania-Engraved

In June 1968, the Danish post office purchased a new Goebel printing press that could print steel-engraved stamps in one, two, or three colors. To test the press, this complex-design stamp was engraved by Slania. This is a classic Slania engraving and at least one printing belongs in every Slania collection. The stamp exists on different papers and in several color combinations and single colors, including printings of partial designs. The basic 3-color stamp that was widely distributed is inexpensive, however, some of the other printings are very to extremely scarce. Blocks of four are scarce; larger blocks are rare.

1980-1985 Horse Statue Slania-Engraved

In 1980 the Danish Post Office purchased a new Goebel "M4" printing press. To test the machine, a test stamp designed by Danish artist Mads Stage and engraved by Czeslaw Slania was produced in 1980. The design is of an imaginary view of København, with the equestrian statue in front of the Royal Palace in the center. To the left is a small fragment of the Christiansborg Palace (Parliament Building) and on the right a partial view of the Royal Residential Palace (Amalienborg).

In 1985, as a fundraising gesture for the Danish Philatelic Federation (DFF) and to support the development of philately, the post office made a special printing of these stamps which was turned over to the DFF which sold them. The marginal inscriptions were removed and stamps were only sold as singles, 4-blocks, and 4-strips. From this printing, larger units are known, but are very rare. The 1985 printing is multicolored: the black is engraved, but the "PRØVE" and all the colors are printed by offset / lithography. It is printed on white paper with greenish-yellow fluorescence and has invisible gum. This stamp is fairly common.

However, it turns out that this was only part of the story! There are two different engravings and different colors. For more information and illustrations, please see this section on the website or write for information.

[Information is wanted about other printings/colors and I wish to buy any such examples.]

Official Reprints

Officially issued Christmas Seal Reprints have been printed -- and are normally collected -- in sheets of ten seals. They have been officially issued by the Danish Christmas Seal Fund (under

the sponsorship of H.K.H. Kronprinsesse Mary) which is in charge of all matters relating to the Danish national TB / Christmas seals. The front of the sheet indicates the year of reprinting, in Danish, such as "Nytryk 1976". The back of each seal also bears the year of reprinting, in English, such as "Reprint 1976". The reprinting started in 1976 and still continues every year, normally with old two years reprinted in each new year. This has been done from the 1904 issue so far up into the 1970s. When reprints have sold out, they have been re-reprinted in a new year along with the two normally scheduled reprints. Though these are usually collected as sheets of ten, I am happy to offer singles if I have a damaged sheet.

Additionally, between 1976 and 2001, nine souvenir sheet reprints have been officially issued in conjunction with stamp shows. These have mostly consisted of five seals: One oversize design and four normal size seals, as well as marginal text. They are presented in the listings by the original year of the design.

Even if the items you seek are not currently available, please send your want list so that I may advise you when they become available. All items are available for viewing on approval. If you wish to build your collection by receiving a few of these on approval every month, I would be happy to send them. New issues of Danish Christmas seals, including these reprints, are available (in whichever format/type you desire) by subscription through my Scandinavian New Issue Service.

Christmas Seals

Christmas Seals - Locomotive Personnel Help Fund

These Christmas Seals were issued from 1914 through 1957. The design is the same for all years; the colors vary. They were printed in 1-wide sheets, 9 stamps high. The later issues are scarce to extremely scarce. I am always interested in buying almost all years.

Even if the items you seek are not currently available, please send your want list so that I may advise you when they become available. All items are available for viewing on approval.

Labels

Labels are issued for many purposes, including commercial advertising and promotion; fundraising (usually then called "seals"); propaganda, publicity, and education; non-governmental payment receipts (example: union dues); and series issued for label collectors. (Post-office issued labels will be considered separately.) In the early part of the 1900s, collecting labels issued in series was very popular, with a few issuers publishing albums (but not in Norway to my knowledge); usually one had to buy a product or visit a store to obtain a label for the album. The term "poster stamps" is often applied to many labels because they are really miniature posters. Labels often look like stamps, but can range from smaller to much larger; from boring and crude to stunning works of art; and from very inexpensive to quite valuable. Some collectors seek labels either for specific thematic appeal or for design elements of the artwork. Norwegian labels, in both overall variety and quantities printed, seem to be few and far between compared to the masses issued in many European countries during the early 1900s. (In Scandinavia, Danish issuers were by far the most prolific, with Swedish issuers well behind and the other countries with many fewer issues. Approvals are available from all Scandinavian countries.) Even the most "common" of labels is usually extremely scarce compared to the postage stamps of the same time period; there are many \$5 labels that would be worth \$500 if they were postage stamps. It is important to note that, over the years, labels have not received the same level of care usually afforded to postage stamps and thus labels are much more likely to have condition problems. Lesser condition always affects the value, but do not automatically pass up a label for that reason alone; you may never see another example of it.

Slesvig

Covers Stamped

Slesvig covers are very interesting due to the short period of use, several postal rate changes, mail from/to the two different zones, and the many different (often scarce) town cancellations.

Scott numbers have been used unless otherwise indicated. All items are available for viewing on approval.

Item #	Description	Price
204939	1 12-block (Fine to F-VF) [2 1/2 Pf Gray] on 9 February 1920 30 Pf cover from "NORBURG (ALSEN)" to Stubbekjøbing, Denmark. Minor bend in upper right corner, but an extremely scarce (large block) franking.	40.00
230028	1-10 small-design set (F-VF to VF) [2 1/2 to 75 Pf] on 4 March 1920 philatelic registered cover from "WYK (FÖHR)". Scarce registry label; the only one I can recall seeing from this town in 33 years. The used stamps alone (off cover) would sell for \$19.25 and at least \$30 as postmark cuttings.	36.00
235246	1-14 (Fine to VF) [Zone II complete set] on 20 February 1920 philatelic cover from FELDST-EDT, a scarcer town postmark. The postmark appears to be "20 12" but the "1" is actually a spacer between the dates. This is priced little more than the value of the used stamps!	90.00
203572	5 pair (Fine+) [15 Pf Red Violet] on 28 April 1920 cover from FLENSBURG to Germany.	30.00
235245	11-14 Top Values (F-VF to VF) [1-10 mark, Zone II] on 10 February 1920 philatelic cover from TONDER to Germany. The 2 mark with plate variety: G of SLESVIG with white spot. This cover is postmarked on the day of the ZONE I PLEBISCITE ELECTION, that resulted in the northern zone becoming Danish. Top-values covers are seldom seen. This is priced little more than the value of the used stamps!	105.00

Stamps

Slesvig stamps are of interest to collectors of both Denmark and Germany. The stamps are often poorly centered with Fine or F-VF being typical. VF examples are scarce and command significant premiums.

All items are available for viewing on approval.

Take a look at the other Slesvig stamp, varieties, cover, cancellation, proofs, and postal stationery listings too.

I wish to buy the following. Unoverprinted issue: any VF mint hinged singles or sets, any VF (and most F-VF) used singles or sets. "1. Zone" Overprints: Any F-VF or better NH, Mint Hinged, or Used singles or sets. "CIS" Overprints: Any NH, Mint Hinged, or Used stamps; certificates required for CIS overprints or I can obtain them for you.

Scandinavia**Tourist Issues**

These stamps were issued in cooperation with the Swedish and other Scandinavian post offices and are valid FROM other countries TO *Sweden, Denmark, Norway, Finland, and Åland*. They are listed by the Facit catalog. There were five different stamp issues included in six different issues of booklets.

It all started in 1994 in the Canary Islands, off the coast of Spain. Many Scandinavians vacation in the Canary Islands during the dark Scandinavian winters. Unfortunately, sending an airmail letter from the Canary Islands back to friends in the Scandinavian countries used to take several weeks as it crawled through the Spanish mails. To solve this problem, Sweden Post, through a cooperative arrangement, issued special stamps, initially sold only in the Canary Islands. These stamps had international franking value for post cards (one stamp) and letters (two stamps) to *Sweden, Denmark, Norway, Finland, and Åland*. The following year, the availability of stamps and service was expanded to other tourist destinations such as Cyprus and Crete. Eventually the stamps came to be used from a number of areas, including Florida! The letters and post cards are posted with the hotels and travel agents and are carried aboard charter airliners to Stockholm where they are placed in the regular mails for delivery within Sweden or to the other countries.

This mail service ceased in the fall of 1998. The stamps have already become quite hard to find; prices are already rising. However, most collectors are not yet aware of them; as they become more well known, we can expect prices to climb.

To my knowledge, this is a completely new type of stamp: Issued by one country for postage use on letters from a different country, back to the home country (or to a neighboring country). These special-purpose stamps are not local issues because they have international validity and they were authorized by a national postal service. They are stamps. The items below are listed by Facit numbers.

Stamps

The Facit Catalog has already listed these stamps. European catalog and album publishers are likely to eventually include them as well. They are already being included in the Stender Albums. Obtain your stamps **now** before they are listed in all catalogs; before prices go up further! Though these stamps were printed in Sweden, they are valid for mail to Denmark, Norway, Finland, and Åland as well as Sweden. This means that collectors of all these countries are including them in their collections. You may wish to do so as well.

Both the B (scarcer, slightly higher price) and C types are usually available upon request.

	#TU13-18 (Hotels) and TU19-24 (Maps) were issued in two different booklets. Each booklet contains a pane of 12 stamps, consisting of two identical six-blocks. The Hotels had two printings. The first Hotels printing has glossy gum, while the second has dull gum. The Maps only had one printing, with glossy gum. The glossy gum is quite variable and sometimes has "skips" in it. While Facit is unclear if the stated issue quantities are for stamps, 6-blocks, or whole booklets, Facit states that only 3200 of the Hotels first printing were issued (the rest were destroyed due to problems with the gum) -- this is very scarce! The stamps have vertical line-rouletting and much smaller, fainter, horizontal line/dot-rouletting. The Hotels first printing and the Maps do not have vertical rouletting between the two six blocks, but the Hotels second printing does have vertical rouletting between the 6-blocks. Both Hotel printings 6-blocks can be found with a vertical line of colored-black roulette cuts at the right side of the six blocks (the binding edge of the panes). All these variations may be available, please inquire.

Covers

The Tourist Stamps were applied to post cards (one stamp) and letters/envelopes (two stamps) by the sender or perhaps a travel agency or hotel employee at the tourism location (i.e. Canary Islands, etc.). The mail was then privately transported to the nearest airport served by related Scandinavian airlines or charter airlines serving the tourists. The airlines carried the mail to Stockholm where it was sorted for delivery in Sweden or carriage on to one of the other Scandinavian countries.

The card and envelopes were **not normally postmarked** in accordance with Swedish post office practice regarding mail that is imprinted or bears stamps bearing the statement "porto betalt" or "port payé". Postmarked covers and cards are the exception and are, of course, avidly sought after.
